Solar panels, as with any other technologies, have limited lifespans of around 25-30 years. With solar panels gaining widespread popularity around 2008, millions of solar panels will reach the end of their life within the next 10 years. With that being said, recycling solar panels offers a sustainable solution for managing end-of-life solar panels.

SPR has successfully recycled millions of pounds of solar panels nationwide, servicing large-scale utilities, solar O& Ms, EPCs, and energy companies. Supported by a leadership team with decades of recycling industry experience, SPR stands as the nation's first utility-scale, ESG-driven recycler in the solar industry.

Solar panel recycling companies Eswatini
