Space-based solar power offers tantalizing possibilities for sustainable energy - in the future, orbital collection systems could harvest energy in space, and beam it wirelessly back to Earth. These systems could serve remote locations across the planet to supplement the terrestrial power transmission infrastructure required today.

My 2003 Monaco Executive was pre-wired for solar panels at the factory; however, the solar panels were never installed. My manual states that the wiring is located on the roof under the refrigerator vent and the other end of the wires are in the cabinet behind the bedroom TV. There are #6 wires o...
