Reliable. Trusted. Efficient. Future Proof Your Home. The tide of energy prices has risen yet again. From the 1st of January 2024 to the 31st of March 2024, an average home is projected to spend about &#163;1,272 annually on electricity, consuming around 3,900kWh.

The energy generated will first be consumed by the building usage. The excess solar energy will be exported into the national grid, where a bi-directional meter will record this in credit form and it will be reflected on your monthly TNB bill. ... HD SOLAR NEW ENERGY SDN BHD (1322745-M)
