SolidEnergy manufactures rechargeable cells at a pilot scale for prototype demonstration and specialized aerospace markets. But their real future lies in the materials they supply--anodes and electrolyte--for mainstream markets such as consumer electronics and electric vehicles.

SES AI's newest facility is in Chungju, South Korea. Equipped with expanded in-house manufacturing capability, the new facility further enhances SES AI's global cell engineering capability, serving as a strong complement to SES AI's Shanghai facility in the steady production of large-format 50Ah and 100Ah Li-Metal cells.

future of global electric transportation on land and in the air with the world's most advanced Li-Metal batteries. SES AI is the first battery company in the world to accelerate its pace of innovation by utilizing superintelligent AI across the spectrum of its business ...

On January 8, 2018 SolidEnergy Systems completed their series C funding round with \$34 million in funding from undisclosed investors. At the time of announcing their series C funding, SolidEnergy Systems also announced appointing the former CEO of NEC Energy and president of A!@# Energy Solutions, Bud Collins, as the companies new COO.

HVAC systems design. Solid Energy Solutions performs efficient system designs for commercial and industrial facilities. In combination with state of the art controls, we seek cost-effective operation. For accuracy, flexibility, and quick response, we use specialized cooling load software and BIM Building Information Modeling (BIM)

SolidEnergy Systems has an overall rating of 3.6 out of 5, based on over 18 reviews left anonymously by employees. 52% of employees would recommend working at SolidEnergy Systems to a friend and 59% have a positive outlook for the business. This rating has been stable over the past 12 months.
