Rechargeable 12V 1.4Ah AGM battery with superior anti spillable technology & low self discharge. Ideal for UPS, electric toys, medical equipment, security systems, remote lighting & many more.

Three phase voltage regulator / stabilizer using servomotor technology for high precision & wide voltage range control. Ideal for large applications. It provides safe 400V output & protects any electronic equipment from voltage faults & spikes. Input / output terminal block for connections. 3 intuitive LCD display (1 for each phase) conveys essential parameters. Built-in wheels with ...

Online UPS provides superior protection & back-up time using double conversion technology, built for sensitive electronics in case of power loss or voltage fluctuations using. Horizontal (rack) / vertical (tower) position mounting options. It provides stable (integrated AVR) clean 230v output through Schuko + IEC sockets. It has an intuitive interface: LCD display + navigation buttons. ...

Rechargeable 12V 6.1Ah AGM battery with superior anti spillable technology & low self discharge. Ideal for UPS, industrial & medical equipment, security systems, remote lighting & many more.

Rechargeable 12V 102Ah GEL battery with up to 2300 charging cycles and capable of deep discharge. Internal composition based on silica gel makes the battery extremely versatile & robust, resistant to vibration & maintenance free. Ideal for heavy duty applications that require high power to operate & large storage capacity: UPS, renewable energy solutions, industrial / ...
