

# South Korea hydropower for home use

How many hydro power plants are there in South Korea?

South Korea generates hydro-powered energy from 36 hydro power plants across the country. In total, these hydro power plants have a capacity of 6063.1 MW. What is hydropower? Hydropower, also known as hydroelectric power, is a form of renewable energy that generates electricity by harnessing the power of moving water.

What percentage of South Korea's Power is generated by hydropower?

Hydropower accounted for 4% of South Korea's total installed power generation capacity and 0.33% of total power generation in 2023.

Does South Korea have a hydropower market?

According to GlobalData, hydropower accounted for 4% of South Korea's total installed power generation capacity and 0.33% of total power generation in 2023. GlobalData uses proprietary data and analytics to provide a complete picture of this market in its South Korea Hydropower Analysis: Market Outlook to 2035 report. Buy the report here.

Does South Korea need hydropower?

South Korea is the world's fourth largest oil importer and intends to increase the share of renewable energy. Only 2% of the whole electricity demand is covered by hydropower generation. As the potential for conventional hydropower is almost fully exploited, South Korea is now focussing on its impressive tidal resources.

Does South Korea have a tidal power plant?

Today, as the potential for conventional hydropower generation is almost fully exploited, Korea is focusing on additional hydro resources, such as tidal energy power generation. South Korea has already built the largest tidal power plant in the world at Sihwa Lake.

How much hydro capacity does South Korea have in 2023?

Hydro capacity accounted for 15.4% of total power plant installations globally in 2023, according to GlobalData, with total recorded hydro capacity of 1,407GW. This is expected to contribute 10.9% by the end of 2030 with capacity of installations aggregating up to 1,562GW. Of the total global hydro capacity, 0.46% is in South Korea.
