What does spark energy services do?

Spark Energy Services (Spark) funds energy efficiency and captive generation projects in Sub-Saharan Africa's commercial and industrial (C&I) sector. Developers Spark works with local developers under an asset co-ownership model.

What makes spark a great energy company?

We know that when it comes to energy, customers want to start small and scale up as and when they can afford. At Spark we incorporate true modularity. This means we're don't just offer customers a single expansion offer. We enable them to take on as much as they can afford, when they need it and in 2022 we put this into practice.

What will spark batteries do for You?

Spark Batteries will now be part of a flexible energy grid that powers homes, businesses and small factories. Solar power will no longer be the only renewable generation option. Wind, biogas and other solutions will be available too. Interested?

What will spark batteries do in 2021?

Spark Batteries will now be part of a flexible energy grid that powers homes, businesses and small factories. Solar power will no longer be the only renewable generation option. Wind, biogas and other solutions will be available too. 2021

Does spark offer a single expansion offer?

At Spark we incorporate true modularity. This means we're don't just offer customers a single expansion offer. We enable them to take on as much as they can afford, when they need it and in 2022 we put this into practice. In 2023 we want to expand on that.
