We had the privilege of being one of the chosen few to test the new Genius Roof Solutions SpeedFlash on a recent Slate roof Solar PV installation. After the installation was complete, I asked the team on-site to describe the product so I could give some feedback to David White, I got a one-word answer: "Gamechanger" Installation time is immediately halved!

Spectra Solar PV Park is a ground-mounted solar project. The project is expected to generate 50,000MWh electricity to offset 33,200t of carbon dioxide emissions (CO2) a year. The project cost is expected to be around \$44.597m.

Spectra solar panels are ideal for maintaining and replacing natural discharge in 12V deep cycle batteries for leisure and light professional applications. Once installed, the solar panel works quietly and efficiently at recharging without any ...
