On Thursday 3 October, my right honourable and learned friend the Prime Minister and Mauritian Prime Minister Jugnauth made an historic announcement: after two years of negotiations and decades of disagreement, the United Kingdom and Mauritius have reached a political agreement on the future of the British Indian Ocean Territory. The treaty is neither ...

From modern entryways to large-scale architectural projects, chemically corrosive industrial environments, and high-traffic areas, our flat and corrugated panels can accommodate almost any structure with a wide range of architectural, daylighting, and design flexibility.

The panels don't take up valuable space and are easier to maintain than their regular roof-mounted counterparts. The walkable, non-slip solar tiles are mounted on recycled plastic paving slabs that comprise recycled plastic and glass, as well as debris - just 1m 2 of solar paving equals the plastic recycled equivalent of 400 PET bottles.

In a matter of seconds, the system can use machine learning to assess a roof's solar potential. Using this information, "Project Sunroof recommends an installation size to generate close to 100% of your electricity use, based on roof size, the amount of sun hitting the roof and your electricity bill," according to Google.

Euan Graham. Senior Analyst, Australian Strategic Policy Institute. The rationale for the UK establishing and maintaining sovereignty over BIOT begins and ends with the joint British-American military base on Diego Garcia, which plays a critical part in maintaining a favourable balance of military power in the Indian Ocean and beyond.

A Sunspace Acrylic Roof is designed as a patio cover and a sunroom roof that will maintain high light transmission throughout the longevity of the product! Built Strong, it's designed to offer protection from inclement weather and harmful UV rays, without blocking the natural light. ... Heaviest and most rigid panels;
