

What is Sunny Boy Storage?

With the Sunny Boy Storage, this is particularly easy and cost-effective. PV system operators require only three additional components--Sunny Boy Storage, battery and Energy Meter--to turn their PV system into a fully-fledged storage system. In this way, they can use even more self-generated solar energy in their own home.

What is a Sunny Boy battery inverter?

WLAN and intuitive web interface Transparency thanks to its direct connection to Sunny Portal / Sunny Places The Sunny Boy Storage is the battery inverter for high-voltage batteries from all reputable manufacturers. With a charge and discharge power of 2.5 kW, it is ideally suited to coping with the electricity demand of a private household.

Can the Sunny Boy Storage System be expanded?

Retrospective system expansion is possible at any time. The PV system and the Sunny Boy Storage system can be expanded independently of each other and flexibly adapted to individual demand. Max.

Why should you choose Sunny Boy Storage?

Thanks to the integrated web server and the direct portal access, commissioning is simple, and the energy flows in the household are as transparent as possible. No matter how the energy is produced and consumed--whether with existing or new PV systems, wind energy or a CHP plant--Sunny Boy Storage can handle everything, today and in the future.

Onduleur batterie SMA monophasé; Sunny Boy Storage 2.5 | 2500W / 230V. Le Sunny Boy Storage est un onduleur à batterie conçu pour des batteries haute tension de tous les grands fabricants importants. Grâce à une puissance de charge et de décharge de 2,5 kW, il est parfaitement ajusté aux besoins en énergie de votre foyer.
