

Swiss solar systems Botswana

Why should you choose solar World Botswana?

We offer top-notch solar solutions that are designed to perform reliably in all weather conditions, ensuring uninterrupted performance. Solar World Botswana is your ultimate destination for comprehensive solar energy solutions. Our mission at Solar World is to deliver dependable solar PV power plants that cater to all your energy requirements.

Does Solar World Botswana have a water system?

Solar World Botswana successfully revitalized and rejuvenated the water system at a resort farm located in Ranaka.

Who is solarbw?

SolarBW is the leading solar power energy company in Botswana and South Africa that distributes Victron Energy products, Freedom Won Lithium Iron Batteries and high quality solar panels.

Who is solar World?

Our target is to provide home solar systems, solar geysers, big rooftop PV systems for malls and warehouses as well as hybrid PV and water pumping systems for farms and mines. Solar world has experience in industrial solar system installations with a clientele ranging from government to private clients and multinationals.

Who are solarbw & widowbird solar solutions?

SolarBW and its affiliate, Widowbird Solar Solutions based in Botswana and South Africa are family-owned companies with a 20 year track record, specializing in the photovoltaic sector.

Why do we need a borehole in Botswana?

This borehole, which extends to a depth of 75 meters, plays a pivotal role in supplying water to a community situated about 3 kilometers uphill, where it is of utmost necessity. Thanks to the unwavering dedication of Solar World Botswana, this essential community requirement is now effectively met. Loading...

Swiss solar systems Botswana

The batteries typically used in solar home systems in Switzerland are LiFePO4 batteries with a capacity of 10 kWh. They have a long service life (6,000 charge/discharge cycles) and a high energy density. With the Volta Swiss system, up to 160 kWh of storage can be achieved per inverter by combining several batteries.

Often called the brain of a solar system, The inverter is one of the most critical components of solar energy, as it converts it into useful energy (direct current (DC) from the solar panels into alternating current (AC) used by domestic and commercial appliances). Solar inverters are therefore a crucial part of a solar installation. V-TAC's range of solar inverters has evolved to ...
