

Tapas solar Samoa

Does Samoa have a solar power station?

MPOWER was awarded a contract to deliver a fully operational 5.0MW solar power station across two sites in Samoa. The first site at Faleolo International airport has a 3MWp solar PV ground mount system. The second site at Faleata Race Track has a 2MWp solar PV ground mount system.

What is solar for Samoa?

The Solar for Samoa project set the benchmark for quality solar power projects in the South Pacific. The two sites will provide up to 27% of the network power during peak output. MPOWER has successfully delivered a wide range of renewable and conventional power systems across the region.

Does Samoa still make tapa?

The Ancient & Timeless Pacific Art of Tapa Making continues to thrive in Samoa. Siapo, also more commonly known in the wider Pacific as Tapa, is one of the oldest Samoan art forms. For years, siapo has been passed from generation to generation. Even so, it has fast become a nearly extinct cultural art form.

What is Samoan Tapa?

Siapo, also more commonly known in the wider Pacific as Tapa, is one of the oldest Samoan art forms. For years, siapo has been passed from generation to generation. Our Samoan women are masters at creating the Tapa. Their continuous love for making this Samoan artefact is what has kept it from extinction.

Who managed the Solar for Samoa project?

The project was managed by MPOWER's construction manager, project manager and HSE managers and carried out by local staff (peaking at 220) in Samoa with regular visits from MPOWER's team in Sydney. The Solar for Samoa project set the benchmark for quality solar power projects in the South Pacific.
