You should not use solar power to cut the first 300-400kwhr of usage as those are subsidized. Why would you want to use solar power to pay for 0.21 per kwhr usage. You should be aiming so that your solar power is paying for the 0.57 per kwhr usage not 0.21 per kwhr usage. More solar panels is not free and you have to pay for it.

Eg, this package will give generate 700 kWh per month, it costs RM 20k. If the system doesnt meet the requirement of 700 kWh (either due to shade from trees, angle of roof, poor design), they will make the output higher by adding more panels until it works. ... TNB tariff structure. Currently, solar panels power generation
