

Trend analysis chart of iron-chromium solar container

<div class="df_qntext">What is the expected CAGR of the global chromium market?

The global chromium market size was valued at USD 21.5 billion in 2022 and is anticipated to grow at a compound annual growth rate (CAGR) of 5.5% from 2023 to 2030.

<div class="df_qntext">What is the chromium market size?

The Chromium Market size is estimated at 43.19 kilotons in 2024, and is expected to reach 52.33 kilotons by 2029, growing at a CAGR of 3.91% during the forecast period (2024-2029). The COVID-19 pandemic had a big effect on the chromium market because of the global restrictions on the auto, building, and construction industries.

<div class="df_qntext">How is the chromium market segmented?

The chromium market is segmented by application and geography. By application, the market is segmented into chemical, metallurgical, refractory, and others (glass polishing, industrial catalysts, and pigments). The report also covers the market sizes and forecasts for the chromium market in 27 countries across major regions.

<div class="df_qntext">What is the chrome market report?

The report provides a detailed analysis of the chrome market across different regions, each with unique pricing dynamics influenced by localized market conditions, supply chain intricacies, and geopolitical factors. This includes price trends, price forecast and supply and demand trends for each region, along with spot prices by major ports.

<div class="df_qntext">How big is the chromium market in 2024?

In 2024, the Chromium Market size is expected to reach 43.19 kilotons. Who are the key players in Chromium Market? Kermas Investment Group, Assmang Proprietary Limited, CVK Madencilik, Odisha Mining Corporation Ltd. and Glencore are the major companies operating in the Chromium Market.

<div class="df_qntext">How will chromium chemicals market grow over the forecast period?

The chromium chemicals segment is projected to grow at a CAGR of 5.7% in terms of revenue over the forecast period. The largest driver of chromium chemicals demand is the production of stainless steel.
