Where is Technip energies located?

Technip Energies has officially moved into its new Houston office location in the Energy Corridor. More than 1,000 employees will occupy six floors of... Technip Energies' approach to sustainability has been rated Platinum by the agency EcoVadis, putting it in the top 1 percent of companies assessed...

What does Technip energy do?

This major contract, defined by Technip Energies as one exceeding EUR1 billion in revenue, underscores the company's and its partners' pivotal role in advancing sustainable and efficient offshore energy solutions. For more information visit

What is Technip energies & SBM Offshore FPSO?

The partnership between Technip Energies and SBM Offshore will see the construction and installation of the FPSO, drawing on Technip Energies' extensive engineering and modularisation capabilities for the topsides, combined with SBM Offshore's proprietary Fast4Ward hull technology.

Who is Technip energies loading systems?

Technip Energies Loading Systems is a trusted solutions provider for your loading arms. Explore BlueH2 by T.EN(TM), a leading solutions portfolio for blue hydrogen production offering low-carbon hydrogen with advanced SMR and ATR technologies. A World of Learning now open to you: Welcome to T.EN University!

JGC Holdings Corporation, led by representative director and CEO Masayuki Sato, announced today that JGC Corporation, in collaboration with Technip Energies and NPCC, has been granted a Limited Notice To Proceed from ADNOC to initiate early engineering, procurement, and construction activities for the Ruwais low-carbon LNG Project in Al Ruwais Industrial City, Abu ...

Last month, US-based FMC and French oil services company Technip signed a memorandum of understanding to create a new company named TechnipFMC. Combination of Technip and FMC will build on the Forsys Subsea joint venture, which was formed between them last year and is expected to deliver at least \$400m in annual pretax cost synergies.

Arnaud Pieton, CEO of Technip Energies, expressed pride in being selected for this significant project, noting that it underscores the company's leadership in modularised LNG and commitment to expanding global energy supplies. He emphasised the importance of the project in supporting the transportation and distribution of LNG worldwide.

TechnipFMC has signed an agreement to acquire 51% of Island Offshore Subsea, taking a controlling stake in the company.. The acquisition will give TechnipFMC the ability to provide riserless light well intervention (RLWI) project management and engineering services for plug and abandonment (P& A), coiled tubing, in

by Hurricane, Technip and FMC, which enabled Hurricane to reduce the scope and the cost of the development.

TechnipFMC and Talos Energy have agreed to jointly develop technical and commercial solutions to carbon capture and storage (CCS) projects in the US Gulf Coast. The long-term strategic alliance will aim to accelerate the implementation of offshore CCS with reliable systems while reducing the global carbon footprint.

About us. TechnipFMC is a leading technology provider to the traditional and new energies industry. ... Transforming marginal fields into profitable energy infrastructures for our industry partners. Contact us. Our innovative eco-system of proven shallow water solutions delivers true economic benefits within the jack-up drilling environment.

About us. TechnipFMC is a leading technology provider to the traditional and new energies industry. ... We are continuing to transform the energy industry with the next generation of the iComplete(TM) SuperFrac(TM), purpose-built for pump swaps with flexibles. The SuperFrac(TM) QuickSwap(TM) is a pre-rig-in system that eliminates the need for all ...

Energy Transfer has signed a preliminary contract with a consortium led by Technip Energies and KBR for the construction of its proposed Lake Charles LNG plant in the ...

Technip Energies, in collaboration with SBM Offshore, has secured a significant contract from TotalEnergies for the development of the GranMorgu Floating ...

Energy industry services provider TechnipFMC has secured a "significant" integrated engineering, procurement, construction and installation (iEPCI) contract from Australia's Woodside Energy. The contract is for the Xena Phase 3 development to support ongoing production from the Pluto LNG project in Australia.

French engineering services firm Technip has secured a new framework agreement from three energy firms, Statoil, Exxon Mobil and Gassco, to provide diving, subsea intervention and repair contingency services. Technip will deliver the services for the next four years under the agreement, which replaces an existing frame agreement held for eight years.

The expansion project will produce approximately 16 Mtpa of additional LNG, increasing Qatar's total production from 110 to 126 Mtpa. Arnaud Pieton, CEO of Technip Energies, commented: "We are extremely honoured to have been awarded by QatarEnergy this mega LNG project, along with our long-standing partner CCC, a leading construction company ...

Technip Energies & CCC JV, Tecnimont, Saipem, and NPCC drive value momentum. This resilience is credited to the significant high-value contract contribution from renowned contractors.
