

# United Arab Emirates stelog energy group

The United Arab Emirates (UAE) has the world's seventh largest proven oil reserves (1) and the sixth (2) largest natural gas reserves, making the country a critical partner and responsible supplier in global energy markets. Although a mainstay in the economy, oil exports account for about 25% of the UAE's gross domestic product, as a result of government policies designed ...

The United Arab Emirates has committed to the global carbon agenda and plans to reduce carbon dioxide emissions by 30% by 2030. In 2017, the United Arab Emirates also launched the Energy Strategy 2050, which aims to diversify current energy sources and double the country's use of clean energy sources by 2050.
