The argentinian sun is weirder, but it has more personality. OTOH, the uruguayan is pretty basic, but doesn't look like a stalker... I'd chose the argentinian one because it's more appropriate for the country's history, as it was supposed to be a reference to the andine sun god Inti and Uruguay has nothing to do with the Inca and andine people, while Argentina at least has some former ...

SunCulture, a solar irrigation company headquartered in Nairobi, Kenya, has received the first disbursement from a new US \$11m syndicated debt facility to expand its operations in sub-Saharan Africa. The new loan is groundbreaking for the productive use solar sector due to its size and its innovative combination of working capital and end-user financing.
