

Vanguard renewables Bulgaria

Vanguard Renewables, a key RNG player in the United States. Headquartered near Boston, Massachusetts, Vanguard Renewables was founded in 2014 and has a workforce of approximately 260. The company currently operates 17 organics-to-renewable energy facilities with an annual capacity of more than 440 GWh (1.5 Bcf) of RNG.

Originally published January 11, 2023. Vanguard Renewables, an organics-to-renewable energy company, announced that a fund managed by BlackRock Real Assets acquired the company from Vision Ridge Partners. BlackRock Real Assets will partner with Vanguard Renewables' management team to build upon the company's track record and drive its next ...

Vanguard Renewables has been working with multi-generational dairy farms and food and beverage manufacturers since 2014, providing sustainable solutions to greenhouse gas emissions challenges by diverting food waste from landfills and sequestering on-farm emissions. Vanguard's Farm Powered process provides dairy farmers across the U.S. with ...

Vanguard Renewables is a national leader in food and beverage waste recycling and develops organic waste-to-renewable energy projects. The Company owns and operates on-farm anaerobic digester ...

We believe that organic waste is an unrealized resource. At Vanguard Renewables, we regenerate waste to its highest and best available use. Our nationwide network of anaerobic digesters converts the energy from organic waste material into renewable natural gas, reducing America's reliance on fossil fuels and mitigating climate change.

Note: equivalents are derived using the EPA's WARM Model and GHG Equivalency Calculator. Calculations for manure emissions are based on a credible peer-reviewed source. Data is based on the number of farms in our existing portfolio with the inputs being food waste and manure as of October 31, 2024.
