Could a new solar panel roof make Rome a green city?

A new solar panel roof has been inaugurated at the Vatican to provide renewable energy to the museum. It's part of Pope Francis' plans to ensure the city state in Rome runs entirely on green energy. Italian energy supplier ACEA installed the photovoltaic roof in just six months in the Courtyard of the Corazze entrance.

What did Pope Francis say about solar power?

Pope Francis outlined his green vision for the Vatican in his 'Brother Sun' letter in June. In it he said solar panels would be installed on a Vatican-owned property outside Rome and the power generated from that could supply all of Vatican City's energy needs.
