Vatican: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. ... solar and wind). These interactive charts show the energy mix of the country. ... we want to transition our energy systems away from fossil fuels towards low-carbon sources.

Vatican Solar Path. Building solar plants is a part of the Vatican's historical plan to go green. In 1971 Pope Paul VI in 1971 said that "humanity risked destroying nature by exploiting it". However, the first materialistic steps were made only in 2008, when 2,400 solar panels were installed on the roofs of the Vatican's Paul V Hall.
