The Wallis and Futuna Islands, nestled in the South Pacific, are a French overseas collectivity. They are divided into 3 main islands and customary kingdoms: Wallis (Uvéa), Futuna (Sigave and Alo). The capital, Mata Utu, is located on Wallis. In 2018, these lands were home to ...

In 1991, BNP Nouvelle-CalÃ©donie, a subsidiary of BNP Paribas, established a subsidiary, Banque de Wallis-et-Futuna, in the territory. Two years earlier Banque Indosuez had closed its branch at Mata-Utu, leaving the territory without any bank. Following this, the Bank of Wallis-and-Futuna (BWF) with its head office in Wallis was created in 1991.

This page presents a high-level insight into extreme events and how extreme events differ from mean climate. Extremes are often related to different physical processes than those that govern long-term means. While an average change in precipitation is primarily due to circulation changes, extremes are much more sensitive to the thermodynamic state and conditions during specific ...

Wallis and Futuna, self-governing overseas collectivity of France consisting of two island groups in the west-central Pacific Ocean. The collectivity is geographically part of western Polynesia. It includes the Wallis Islands (Uvea and surrounding islets) and the Horne Islands (Futuna and Alofi).

Trends in climate -- past, present and future -- always need to be understood in the context of the naturally occurring variability. Climate variability here, refers to the ways how climate conditions (e.g., temperature and precipitation) "flicker" from year to year within their respective typical "range of variability". The cause for this natural variability can be due to quasi ...
