

Xendee corporation Sint Maarten

What is xendee?

XENDEE is the world's most awarded Microgrid Decision Support Platform for certifying the resilience and bankability of distributed energy systems.

Where is xendee headquartered?

XENDEE develops advanced software for financial & technical optimization and operation of resilient Microgrids and renewable energy systems. and is headquartered in San Diego, California, United States. Where is XENDEE Corporation 's headquarters? XENDEE Corporation is located in San Diego, California, United States.

When did xendee Corporation close?

XENDEE Corporation closed its last funding round on Jun 15, 2022 from a Series A round. Who are XENDEE Corporation 's competitors? Alternatives and possible competitors to XENDEE Corporation may include Radiant , Type One Energy , and Veloce Energy.

What is xendee's proposal?

Xendee's PROPOSE is a catalog driven proposal tool designed to win deals fast and pass projects to engineers effectively. Propose Solutions-> With DESIGN, quickly model detailed power and thermal flow in your microgrid/DER network together with financial constraints. Design for Optimal Performance->

How long does it take to run xendee?

Operate with Efficiency-> "I can take what normally would include a site walk-through, three months of negotiating with the utility to get the data, and a ten hour modeling exercise, and with Xendee can smash that into just a couple hours.

Importantly, the use of Xendee software is not limited to the initial planning and implementation phases. As the corridor project continues to be built out in phases, Xendee will be used iteratively. This ongoing application allows for continuous optimization and adaptation as new sections are added and system dynamics evolve.

Xendee develops software that helps planners and investors validate the technical and financial performance of Microgrids with confidence. Our platform enables a broad audience, from business decision makers to scientists working on cutting-edge research.

About Xendee Corporation Xendee is an award-winning software platform built to integrate the feasibility analysis, detailed engineering, and operation of Distributed Energy Resources and EV fast-charging ...

Xendee was able to quantify savings from peak reduction and energy arbitrage including reduced price

Xendee corporation Sint Maarten

volatility, benefits from enhanced reliability, Carbon emissions reduction, analysis of any relevant incentives or tax credits as well as revenue from the sale of excess electricity. ... RAND Corporation, Converge Strategies, LLC, and Ridgeline ...

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation, the leading distributed energy system and Electric Vehicle (EV) fast-charging design and operation platform, is excited to announce its role as a partner in an ...

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation, provider of the leading design and operation platform for distributed energy systems and Electric Vehicle (EV) fast-charging infrastructure, releases the findings of its 2024 Commercial EV Charging Market Survey, the second in the series of annual research studies. Xendee launched this research survey of ...

Schedule Your Demo Discover What Xendee Can Do For Your Organization. Let us know more about your organization with the information below. A Xendee expert will be in contact soon to set up a meeting.

SAN DIEGO, CALIFORNIA, March 9, 2021: Xendee Corporation, Idaho National Laboratory (INL), and the Alaska Center for Energy and Power (ACEP) have...

The UIUC campus was modelled on the Xendee microgrid platform - a comprehensive planning and decision-making tool, based on mixed integer linearized optimization with capabilities for modeling over twenty-five ...

SAN DIEGO--(EIN PRESSWIRE)--Idaho National Laboratory (INL), in partnership with Xendee Corporation and Reilly Associates, has released a new report titled "Small Reactors in Microgrids: Technology Modeling and Selection." The report details a comprehensive model for techno-economic analysis that explores the potential of small ...

With this report Xendee Corporation and Idaho National Laboratory conclude the first version of the Microgrid Fast Charging Station (MFCS) Design Platform as well as all related tests and validations for two in-depth case studies for islanded and non-islanded operation.

An All-Inclusive Design Solution. Capitalize on government funding by finding the largest operational cost savings during project assessment phases. Quickly perform preliminary project assessment by utilizing built-in databases and catalogs for your EV or microgrid resiliency project.

Announcements | Read news, press releases & product updates related to the Xendee Microgrid Design Platform & the distributed energy technology industry.

Xendee's ability to optimize dispatches minute-by-minute will help you meet your EV charging load. Xendee will size your EV charger, solar, battery, and generator combinations to meet your EV load and ride through peak time-of-use periods, ...

Xendee corporation Sint Maarten

XENDEE Corporation uses 13 technology products and services including HTML5, Lightbox, and Google Fonts, according to G2 Stack. XENDEE Corporation is actively using 10 technologies for its website, according to BuiltWith. These include ...

Xendee Corporation, provider of the leading design and operation platform for distributed energy systems, is excited to announce a partnership with researchers from the Department of Nuclear, Plasma, and Radiological engineering (NPRES) at University of Illinois Urbana-Champaign (UIUC) to analyze and develop distributed energy solutions that include ...

Xendee | 2,023 followers on LinkedIn. The most advanced software for design and operation of EV fast charging infrastructure and microgrids | Advanced SaaS platform for design and operation of EV fast charging Infrastructure, Microgrids, and complex distributed energy systems. #evinfrastructure #caas #microgrid #distributedenergy #microgrids #DER ...

The Xendee Corporation, a leading Distributed Energy Resources, and Electric Vehicle fast-charging infrastructure design and operation software provider,... The Xendee Corporation, a leading Distributed Energy Resources, and Electric Vehicle fast-charging infrastructure design and operation software provider, announced recently that Joshua Goldman has...

Xendee Corporation, Converge Strategies, Barrett Energy Resources Group, and Principal Investigator RMI have launched a new Airport Microgrid Implementation Toolkit designed to expedite the transition of airports and aerospace facilities to secure on-site Microgrids and distributed energy resources (DERs). The project, which was funded by the Airport ...

About Xendee Corporation Xendee is the new standard in distributed energy system design and operation. The award winning platform integrates the microgrid design process into one piece of software and allows users to rapidly validate projects of any size, optimize designs, optimize investments, and operate microgrids in realtime to reach their full potential.

SAN DIEGO--(BUSINESS WIRE)--The Xendee Corporation, provider of the leading design and operation platform for distributed energy and microgrid systems,... Xendee and UIUC Deliver Phased Approach to Power Data Centers with Renewables and Advanced Nuclear

Xendee Corporation partnered with Idaho National Laboratory to develop an optimized platform for designing Microgrid Fast Charging Stations (MFCS) quickly and effectively. This project was funded by the DOE Office of Electricity, Microgrid Program. The platform was developed alongside a detailed analysis of two test sites which acts as seed ...

Xendee Corporation and Idaho National Laboratory have launched a Microgrid Fast Charging Station Designer within the Xendee platform as well as tested and validated it with two in-depth case studies for grid
