The composition of a Cegasa Zinc Air battery. Constant voltage output = constant performance. Cegasa technology ensures that the voltage output varies by less than 2%, regardless of the battery (SoC) state of charge. This means that in applications such as signalling, the light intensity is constant throughout the life of the battery.

En plus d'une gamme complète de batteries de cultures, Battery World propose une gamme de Piles culture; la marque CEGASA. Cette société est actuellement un des principaux fabricant mondial sur ce marché. Les piles CEGASA AIR-ALKALINE respecte un cahier des charges très précis afin d'obtenir une qualité de produit optimale.

The E/Bick Ultra175 is Cegasa's answer to installers looking for a pre-installed and self-manageable "plug and play" battery. It's ideal for replacing lead-acid batteries in existing installations, as well as for new self-consumption and off-grid installations with requirements from 13 kWh to 80 kWh.

The exclusive LFP (LiFePO4) technology that CEGASA incorporates in its Lithium-Ion batteries guarantees the highest number of cycles on the market, reaching a useful life of up to 15 years in intensive work
